Cincinnati, Aug. 6.—The Reds won both games of their double-header with Louisville and St. Louis today. The team has now won ten straight games. In the second game the Reds made their hits at the right time, while Breitenstein was invincible.

DOES IT  
CURE CATARRH?One of the Seventeen Thousand  
Testimonials Received.

Boston, Mass., April 20.  
Dear Sir:—I had Catarrh for twenty years, and the last ten years of all which time has been passed in establishments I suffered fearfully. I could not sleep with my mouth closed. I began using "Hyemol" in December, 1893, and in two weeks I entirely recovered and now, after four months and no return of the disease, can say, positively, "I am cured." I am going to ask the best of this, Mr. E. D. Jordan, to endorse this statement.

ELVIRA E. B. GIBSON.

## CYCLING.

"That report sent out last week, that the French Union has asked the International Cyclists' Association to take a mail vote and allow the 'Outlaws' representation at Montreal is most laughable," said Chairman Gerlach, of the L. A. W. racing board. "It only goes to show the weakness of the 'Outlaws.' My opinion is that it is a stand in the last ditch. The 'board of control' has doubtless been jollying the men up and holding out glittering promises of recognition at the international meet. Finding that there was not the slightest chance for them and fearing that if some step was not taken to keep the men in line and prevent them from bolting, this story was sent out. If the men can be held until after the Montreal entries close, the 'Outlaws' will be satisfied. They know they cannot be recognized, for the rules of the I. C. A. will not be held until the Montreal meet."

"I have had no reason to think the I. C. A. ever thought of recognizing the 'Outlaws.' They know the L. A. W. is the recognized body in this country, and malcontents will have shown that I did not need the assurance of Secretary Sturmy and the Canadian officials. However, I have letters from these gentlemen, assuring me that the L. A. W. will receive their strongest support and that no American rider not nominated by the L. A. W. will be allowed to ride at Montreal. The stories to the contrary are all rank 'fakes.'"

The motor-carriage race at the L. A. W. national meet is now assured. Mr. Metz, of the Waltham Manufacturing Company, having accepted the challenge of Mr. F. O. Stanley for such a contest. This should prove one of the most attractive features of the races, as it will be practically the first race of importance between this type of machines in this country. As both sides are seriously in earnest about the matter, and as the side bets are large, there will be no question of the series of heats which constitute the race being fought to the tape.

## MARTIN'S FERRY NEWS.

The Daily Chronicle of Wheeling's Progressive Neighbor.  
A fable of the smooth tongue variety, struck our city Saturday, and had it not been for our efficient police it might have been to his sorrow. He had been selling rings and cuff buttons for twenty-five cents each and not only giving the purchaser back his money but doubling it after each sale. The audience thinking that he was going to observe the former rule of doubling the money eagerly bit on the old time game. He collected about \$60 and then skipped out. The crowd of about 150 became angry and started after him and chasing him into Henderson's hardware store where he at once called for police. Officer Bailey arrived and escorted the gentleman to the city building, followed by the angry crowd. The fable was released, having previously paid his license, but not being able to find any charge upon which he might be held, as he had not stated to the audience that he was going to double their money or even give it back. Had it not been for the promptness of the officer he might have been handled by the angered crowd in a very rough manner.

## It was one of these experimental farmers, who put green spectacles on his cow and fed her shavings.

His theory was that it didn't matter what the cow ate so long as she was fed. The questions of digestion and nourishment had not entered into his calculations.

It's only a "tenderfoot" farmer that would try such an experiment with a cow. But many a farmer feeds himself regardless of digestion and nutrition. He might almost as well eat shavings for all the good he gets out of his food.

The result is that the stomach grows "weak," the action of the organs of digestion and nutrition are impaired and the man suffers the miseries of dyspepsia and the agonies of nervousness.

To strengthen the stomach, restore the activity of the organs of digestion and nutrition and nourish the nerves, use Dr. Pierce's Golden Medical Discovery. It is an unfailing remedy, and has the confidence of physicians as well as the praise of thousands healed by its use.

In the strictest sense "Golden Medical Discovery" is a temperance medicine. It contains neither intoxicants nor narcotics, and is as free from alcohol as from opium, cocaine and other dangerous drugs.

Don't let a dealer delude you for his own profit. There is no medicine for stomach and blood "just as good" as "Golden Medical Discovery."

"I can say to you, one bottle of your 'Golden Medical Discovery' has cured me sound and well, after suffering two long years with stomach disease," writes W. H. Brewster, of Middleville, Gates Co., N. C. "My health is worth all the world to me. I will praise you as long as I live."
